Satisfied

Denver Harbor

I'm burned by the sweetest fire, victim to my desire
And the hardest thing is you don't seem to notice
I love the games you play lie straight to my face
And I don't even care at allOne miracle you left me here
And all my faith just disappears one miracleThis hearts yours again bleeding in your hands
And I hope you're satisfied satisfied
Pull me back to start watch me fall apart
I hope you're satisfied satisfiedI'm riding on your wave you crush me when you break
And I swallow all my self-control
My karmas brought you here take your souvenir
And cut me into pieces
