

I Like It Already

David Lee Murphy

Hey

She slid across the front seat and said, "Come on baby, let's go"

She rolled down the windows and cranked up the radio

She said, "When I'm with you honey, I feel defenseless"

Oh and that kinda talk can drive a man senseless

I'm just doin' my best to keep my heart steady

I think, I'm in love and I like it already

With one hand on the wheel and the other one losin' control

I was tickin' like a time bomb tryin' to keep the car on the road

Yeah, she had my mind in such a sweet commotion

I was gettin' all kinds of serious notions

I just tryin' to hold on, keep my heart steady

I think, I'm in love and I like it already

Yeah, I like it already

(I like it already)

Oh, I like it a lot

(I like it a lot)

I like it already

(I like it already)

Oh and I don't want it to stop

Oh, somethin' real good is happenin' to me

And I'm beginnin' to see the possibilities

Hey from here on out the sky's the limit

She's got me holdin' on from minute to minute

I'm just doin' my best to keep my heart steady

I think, I'm in love and I like it already

Yeah, I like it already

(I like it already)

Oh, I like it a lot

(I like it a lot)

I like it already

(I like it already)

Oh and I don't want it to stop

I'm just doin' my best to keep my heart steady

I think, I'm in love and I like it already

Hey, I'm just doin' my best to keep my heart steady

I think, I'm in love and I like it already

Hey, I'm a likin' it

Hey, I like it already

Yeah, I like it already
Hey, I like it already
Hey, yes I do
