Genius

Ardian Bujupi

(Krizz Kaliko)
1-9-74 was the year mommy and daddy had created a monster
The funny looking kid from the suburbs, and referred as genius cause nobody wants to
Cook up a musical recipe,left it to me so Imma have to give it what I got left of me
Cause if I left it up to ya-all
Most of yall would probably drop the ba-all
I be raping these records lately, and yall aint trying
You say celibate, but I aint buying
No we cant baby baby
That crazy world maybe maybe
And dont be caring they hate me
And if you staring it maybe-be-be
Blinding, cause Im a supernova, Im shining
The tippy-top is where I'm residing
So if I gotta Rescue Ranger it, picture painter it
Whoops! I left my stain in it (I AM!)
(Chorus)
Genius
Genius (I am)
Genius (Dont you know my nigga)
Genius (Dont you know my nigga)
(Bridge)
Take this session, as a blessing
His confession, keep em guessing
Hes the best in, his profession
Hes professin', learn the lesson
(Krizz Kaliko)
IF E equals mc (squared)
I'm an MC (squared)
No comparison (stare)
I'ma therapist
Dare you to listen

Now pay attention
How can I mention, your music paralysis!?
Beckon 'em, (Come here!)
Lyrically I'm checkin' 'em
Tellin' 'em: (Get over here!)
Way too far too left on 'em

The best since my conception,
Put ya antennas in my direction!
Give me an inch and a lead and it's over
I've been a sidekick, now i'm taking over
Never believed that a team, me could lead em
Now they salute when they see em (I AM!)
(Chorus)
Genius
Genius (I am)
Genius (Don't you know my nigga)
Genius (Don't you know my nigga)
(Bridge 2)
Ive been different all my life for a reason
Waiting to attack in my season
And Ima be here, never leavin
This is the reason I'm breathing
(Bridge 1)
Take this session, as a blessing
His confession, keepem guessing
Hes the best in, his profession
Hes professin, learn the lesson
(Chorus)
Genius
Genius (I am)
Genius (Don't you know my nigga)
Genius (Don't you know my nigga)
