

It's On

Superchic[k]

It all comes down to this
You take your best shot, might miss
You take it anyway
You're gonna make your move today
Got the will, you'll find the way
To change the world someday
Grab this moment before it's gone
Today's your day It's on (and on) it's on (and on) it's on (and on) today's your day so come on, bring it on
(and on) it's on (and on) it's on (and on) today's your day so come on, bring it on And the view will never change
Unless you decide to change it
Don't feel like it today
Just show up anyways
And though life will take you down
It only matters if you let it
Get up, go through, press on
Today's your day It's on (and on) it's on (and on) it's on (and on) today's your day so come on, bring it on
(and on) it's on (and on) it's on (and on) today's your day so come on, bring it on And though you wanna quit
Don't think you can get through it
You've come too far to walk away
It's not gonna be today
And no matter how you feel
It's what you do that matters
This is your moment to be strong
Today's your day It's on (and on) it's on (and on) it's on (and on) today's your day so come on bring it on
(and on) it's on (and on) it's on (and on) today's your day so come on, bring it on (no matter how you feel, it's
what you do that matters it's your moment to be strong) It's on (and on) it's on (and on) it's on (and on) today's
your day so come on bring it on
(and on) it's on (and on) it's on (and on) today's your day so come on, bring it on
