Put the Blame On Me

Eurythmics

Put the blame on me
Put the blame on meTake me to a dark room
And hug me to bits
I just wanna be kissed so badly
Right there on my lipsPut the blame on me
Put the blame on meWhy did you close your eyes
When I'm the one that's blind?
Why did you close your eyes?

That was too unkindWhere are you tonight, are you sleeping on your own?

I need to know where you are tonight

Are you sleeping on your very own?

Tell the one that's lying with youTo get right up and go back home

To get right up and go back home

To get right up to get back home, and go back home To get right up and go back home

To get right up and go back home

To get right up and go back home(Put the blame on me)

To get right up and go back home

To get right up and go back home(Put the blame on me)

To get right up and go back home

To get right up and go back home(Put the blame on me)

To get right up and go back home

To get right up and go back home

...
