

# Where You Wanna Go

## Red Wanting Blue

Wherever you wanna go that's fine  
Dress up just like Audrey Hepburn and thread the needle with the divine  
Or cut down parking meters  
Sheets to the wind I'll oblige  
As long as we drink 'til dawn and then sleep through the light  
Where do you wanna go tonight  
You feel like palm trees and mai thais  
It's the same old thing every Saturday night  
That's why we're getting out of here tonight  
So tell me where you wanna go  
Tell me where you wanna go  
Oh wherever you point to I'll find  
So tell me where you wanna go  
Tell me where you wanna go  
Girl, I'll let you steer the wheel while I drive  
Strip bars make you feel dirty  
Go wash your hands  
Amusement parks don't start 'til it turns green  
And the drive-in's cold as hell  
The windshield fogs up so well  
It looks like ghosts are dancing on movie screens  
So where do you wanna go tonight  
Oh I feel like drinking whiskey and getting high  
It's the same old thing every Saturday night  
That's why we're getting out of here tonight  
So tell me where you wanna go  
Tell me where you wanna go  
Oh wherever you point to I'll find  
So tell me where you wanna go  
Tell me where you wanna go  
Girl, I'll let you steer the wheel while I drive  
Where do you wanna go tonight  
Oh you can't be in the circus if you don't wanna leave town  
No destination's too far from us now  
So tell me where you wanna go  
Tell me where you wanna go  
Oh wherever you point to I'll find it  
So tell me where you wanna go  
Tell me where you wanna go

Girl, I wish that you would make up your mind  
So tell me where you wanna go  
Tell me where you wanna go  
Girl, I'll let you steer the wheel while I drive  
Where do you wanna go tonight  
Oh, make up your mind
