

# White Roses

## Pure X

little school kid  
sick of watchin the clock count down  
so you get up and you walk out  
little school kid  
wanderin 'round till dawn  
then it's in through the window  
like you were never gone  
little school kid  
locking the door to your room  
turn the music up  
let the flowers bloom  
little school kid  
the sky is blue, then it's grey  
you're on the streets when the lights come on  
they show you the way  
little school kid  
money from your mama's purse  
it's to the park  
fadin in the dark  
white roses falling  
white roses falling  
white roses falling  
white roses falling
