Susanah

30db

You got my number it's on you to make the call
and I won't bother you at all
but if you want we'll get together

Once or twice
it would be nice to see you
I believe you
even if a doubt enters my mind

And we won't talk about our names here
And theres no one who wants to find out
ANd even if you've had a bit too much to drink
We'll talk it out

I knew the feeling of being lost and not being looked for
And I made some plans in which life couldn't disagree more
I know direction and what it means to speed along
We've been provided with the means to make ourselves feel we belong

And we won't talk about the things we should forget
but deep inside I'm not sure how to do that yet
to treat you like a cigarette
and just put you out

Oh Susanah you can cry for me
Make the world around you wetter
It will make you feel much better
You can cry for me

Hang your oceans out to dry tonight
They're not deep enough to sink you
In the end know that I'll think of you the same
