

# Worthless

## Hangnail

Fast cars and guitars to play  
Who cares about the price we pay  
Good jobs for big wads to spend  
It's the priorities of this selfish world we live in We must hold the wealth of the world  
Loosely in the palm of our hands  
When it's all gone, there's just one thing that remains  
God will always be here Fast cars and guitars to play  
Who cares about the price we pay  
Good jobs for big wads to spend  
It's the priorities of this selfish world we live in We must hold the wealth of the world  
Loosely in the palm of our hands  
When it's all gone, there's just one thing that remains  
God will always be here We must hold the wealth of the world  
Loosely in the palm of our hands  
When it's all gone, there's just one thing that remains  
God will always be here We must hold the wealth of the world  
Loosely in the palm of our hands  
When it's all gone, there's just one thing that remains  
God will always be here
