You Got Me Runnin'

Fastway

Look what you've gone and done
To my heart and my life
Come on, back to me sunshine
Wipe this cloud from my skyDreamin' up a crazy idea
Want to make you jump and shout
Don't you ever give into someone
That'll make you decideYou got me runnin', you got me comin'
Just like I never did before
You got me runnin', you got me comin'
Just like I never did beforeJust take back what you said
To me yesterday, child
'Cause now you don't want me angry
Or else I'll kick from insidePickin' me up
Shakin' me down, shakin' me downDreamin' up a crazy idea
Want to make you jump and shout
Don't you ever give into someone
That'll make you decideYou got me runnin', you got me comin'
Just like I never did before
You got me comin', you got me runnin'
Just like I never did beforeAnd you got me, you got me
Just like, just like
Just like I never, never ever
I know and I'm gonna tell youYou got me runnin', you got me comin'
Just like I never did before
You got me comin', you got me runnin'
Just like I never did beforeYou got me, you got me
Just like I never did before
