

All I Have

[Mat Kearney](#)

Here we go at it 3 years later
will you help me dream it all up again
tired of the same song everyone's singin'
rather be lost with you instead
won't you come around here,
come around here anymore
dragin' my fears dragin' my fears out the door

(chorus)
all i have (x3)
well you know it's yours
every breath every step every moment i'm lookin' for
all i have (x3) is yours
and you watch
my heart break a little bit more (x3)

is it cold yet in New York City
round here the trees been blowin' our breath
everyone's talkin' 'bout change on the airways
and i still get you all my pret
won't you come around here come around here anymore
dragin' my fears dragin' my fears out the door

chorus

lord i'm still tryin' to dis my heartache
won't you pick up a song from the fall
cripple in the corner off in darkness
just to crack light in it all

chorus
