

# Stateside

## Dose

fell in love with a crazy girl  
and now I'm not alone  
i never really had a heart  
i never even had a homegot me serving stateside  
shipped me overseas  
will i ever see my girl  
staring back at mecaptivated by her style  
lip gloss n' broken wings  
i see the stars all in her eyes  
i wonder what she's wonderingstanding on this fault line  
this earthquake is shaking me  
will i ever see my girl  
staring back at meas typical  
as it may seem  
you've never seen the likes of a boy like me  
i want her more  
than anything  
i have nothing,  
n' she's something for me
