

Baby Hates Me

[Danko Jones](#)

My favorite situations
Are always sticky kinds
I'll be the first to cast stones
I dont let sleeping dogs lie Ill sing it from a mountain
Just take me to the top
Ill scream it 'til my lungs pop
Ill stand here til I drop The feeling is leaving
Its all gone, it's deceiving
If we don't stop put me in a coffin
'Cause you and I had absolutely nothing in common Baby, I know you hate me
And you can't shake me
You make me rock solid, hot and bothered, it don't matter
I can shake you, yeah You used to be so special
Now Im bored all the time
You think the same of me too
Just say it dont be shy The feeling is leaving
Its all gone, its deceiving
If we don't stop put me in a coffin
'Cause you and I had absolutely nothing in common I used to want you, baby
Now I dont want to, I know you hate me
Time to start moving on, but you still crave me You just amaze me
I used to want you, and you can change me
Now I dont want to
You make me rock solid, hot and bothered
It don't matter I can shake you Ohh, baby, its been a long time comin'
And its just the way its gotta be
But I know this is one thing, one thing we wont fight about
And you can put my name on the dotted line Yeah, baby, I know you hate me
I used to want you but you still crave me
Now I dont want to, you just amaze me
Time has stopped moving on and you can't shake me I know you hate me
I used to want you, and you can't shake me
Now I dont want to
You make me rock solid, hot and bothered
It don't matter I can shake you, yeah
