

Gimme Somethin' True (feat. Jose James)

Basement Jaxx

(get on on it, get on on it)

Those lonely nights you spent without me baby, done something to you,

Those lovely nights when we were one without a care we used to do,

I need to find the love we lost and hide between the cracks of what we knew

Another soul I call who wonder through the maze of love and can't find something true
Know the dawn is coming soon

But baby hold me close and set me free (yeah)

Because the magic is the music and the music is my melody

C'mon now gimme gimme gimme gimme gimme gimme gimme something true

C'mon now gimme gimme gimme gimme gimme gimme something true (get up on it) (basement jaxx
representing new york city)

Those lonely nights you spent without me baby, done something to you,

Those lovely nights when we were one without a care we used to do,

If we could face the family be we'd find the rhythm to set our mind and body free

But girl it's magic when we touch

Oh when we touch just you and me
Know the dawn is coming soon

But baby hold me close and set me free (yeah)

Because the magic is the music and the music is my melody

C'mon now gimme gimme gimme gimme gimme gimme gimme something true

(oh gimme gimme gimme)

C'mon now gimme gimme gimme gimme gimme gimme gimme something true

(Oh, yeah) (everybody get up)

(everybody get up)

Yeah Representin' the dance, representin' B-bop,

Representin' the funk, then the beat don't stop

Basement Jaxx on the track with the clap clap

Cause Names is fuckin' with the group with the stack stack

Brooklyn Kweli and Mos

And pretty baby with the rhythm hold my body close

The knee flowin, this beat goin' in hope

Believe none of y'all got the rhythm and rhyme to make ya get down

And we dont stop

Drum and bass gonna make the place red hot

Cant stop wont stop buzzin' like a barber shop

None of y'all got the rhyme and rhythm to make ya get down

And you can smile if you wanna

Do the damn think like the sun ain't goin' come out tomorrow

Because it always will

Roll on the digi with the wheels of steel

Roll on the digi with the wheels of steel
Make a little noise let em know how you feel
Put your hands in the air show em how you feel
Say bounce say bounce, say New york
Dancing through the rain drop
We be dancing through the rain drop
We be dancing through the rain drop
We
Dancing through the rain drop
We
Dancing through the rain drop
We
Get up on it
C'mon get up on it
Get up on it
Get on on it
Get on on it
Get on on it
Basement Jaxx
Ooh c'mon
Put your umbrellas down
Put em down
Put em down
Yeah
Now dance through the rain drops
Representin' London
London style
London beat
London smile
Dancing through the streets of Soho
Act like you know know
Click clack take my picture man
Yeah now hold it right there
