

All I Need to Know

Jimmy Robbins

I didn't why I couldn't run away
no street signs telling me to stay
I didn't know why I couldn't let go
I didn't know, didn't know, didn't know
I didn't I had the strength to be
Anything but my worst enemy
I didn't know much but there's one thing I know

She loves me, when I need to be loved
She feels me, when I'm feeling bad enough
She's the envy but I'm not afraid
She gives and gives til' theres nothing left
and thats all, thats all I need to know
Thats all I need to know

I didn't why I couldn't escape
This can't shake heartbreak sweepin' mistakes
I didn't know the world could be so cold
I didn't know, didn't know, didn't know
I didn't who I wanted to be
Locked up inside threw away the key
I don't know much but theres one thing I know

She loves me, when I need to be loved
She feels me, when I'm feeling bad enough
She's the envy but I'm not afraid
She gives and gives til' theres nothing left
and that's all, that's all I need to know

My world stops with you
My world stops with you

She loves me, she feels me
She loves me, whoa yeah
She loves me, when I need to be loved
She feels me, when I'm feeling bad enough
And shes the envy but I'm not afraid
She gives and gives til' theres nothing left
and that's all, that's all I need to know
She loves me

That's all I need to know

She feels me

That's all I need, that's all I need to know

She loves me

My world stops with you
