

Perfect Time

Beecake

second hand can fly
as we watch numbers rise
giving scores to our adventures eye
tried to catch the air
watch you breathing there
laughing at our soles and dentures the only time we have is now
don't waste our time with where and how
you know you can't allow
your thoughts to take this time from you
look inside you know it's true
(whoa ooo)
I've chased a thousand rainbows
(whoa ooo)
I've crashed a thousand times
tomorrow tares the rest of me
when yesterday is all I see
you said the perfect time the river rushes clear
as we set out our scene
and time beats out thoughtful rhythm eye
I discover tree
as tree discovers me
and soon we see we are the system the only time we have is now
don't waste our time with where and how
you know you can't allow
your thoughts to take this time from you
look inside you know it's true
(whoa ooo)
I've chased a thousand rainbows
(whoa ooo)
I've crashed a thousand times tomorrow tares the rest of me
when yesterday is all I see
you said the perfect time
time time time
will break your heart if you let it
time time time
will break your heart
don't you let it the only time we have is now
don't waste our time with where and how
you know you can't allow

your thoughts to take this time from you
look inside you know it's true
(whoa ooo)
I've chased a thousand rainbows
(whoa ooo)
I've crashed a thousand timestomorrow tares the rest of me
when yesterday is all I see
you said the perfect time
the only time we have is now
don't waste our time with where and how
you know you can't allow
your thoughts to take this time from you
look inside you know it's true
(whoa ooo)
I've chased a thousand rainbows
(whoa ooo)
I've crashed a thousand timestomorrow tares the rest of me
when yesterday is all I see
you said the perfect time
time time time
time
time
