Risk It All

Blue

I could never fly, I was afraid to fall
I would never swim, too far away from shore
Never took the jump, without a safety net
Never played the hand, was unsure of it
Thought I was living, yeah
But I was missing, eyy
And everything I got I tried so hard to find
For you I'd leave it behind
If you had the world right now
If you had all worked out
If you had it all to lose
Why would you take time to choose
You already know by now
For me there are no doubts
Whether we rise, whether we fall
I take one look at you, and I feel
I feel like risking it all
If I ask you to run away with me right now
Take a look around,
What could you live without
Tell me everything,
There's nothing more you need than to be here with me
I thought I was living
But you're what I was missing (missing)
I was hand... way too long

What was I thinking
Now I dive heart first into love
If you had the world right now
If you had all worked out
If you had it all to lose
Why would you take time to choose
You already know by now
For me there are no doubts
Whether we rise, whether we fall
I take one look at you, and I feel
I feel like risking it all
Could I have my life the way you do
I walk away from all I knew

I turn my back and take the blame
Tell me that you would do the same [you do the same]
If you had the world right now
If you had all worked out
If you had it all to lose
Why would you take time to choose
You already know by now
For me there are no doubts
Whether we rise, whether we fall
I take one look at you, and I feel
I feel like risking it all
