

Save Your Love

[Tracie Spencer](#)

Save your love, save it up
Save your love, save it up How can I touch you so far away
I'll miss you more than these words can say
I know you're lonely but so am I
But when temptation calls you remember you're my guy Save your love, my love save it just for me
Save it up, every drop till you're here with me
Save it all, don't you fall to my heart be true
'Cause I'm saving my love for you You know I trust you with all my heart
Still I get jealous when we're apart
It's only human you're gonna flirt
But if you get too friendly baby, I'll get hurt Save your love, my love save it just for me
Save it up, every drop till you're here with me
Save it all, don't you fall for somebody new
'Cause I'm saving my love for you Kenny called me late last night
Hoping he could steal my heart away
I'll keep hanging up on him
All that I'm asking is you do the same Save it, save it
Saving it just for you baby
[Incomprehensible] save it
[Incomprehensible] save it, save it Save your love, my love save it just for me
Save it up, every drop till you're here with me
Save it all, don't you fall to my heart be true
'Cause I'm saving my love for you, yeah Save your love, my love save it just for me
Save it up, every drop till you're here with me
Save it all, don't you fall for somebody new
'Cause I'm saving my love for you Save your love, my love save it just for me
Save it up, every little drop till you're here with me
Save it all, don't you fall to my heart be true
'Cause I'm saving my love for you Save your love, my love save it just for me
Save it up, every drop till you're here with me
Save it all, don't you fall for somebody new
'Cause I'm saving my love for you Save your love, save it up
Save your love, save it up
Save your love, save it up
Save your love, save it up
