

Safely in My Loveseat

Sonder

I've been lost and unprepared
Oh my my, how I'm scared
Oh no no, Nobody waits for me

Places bursting at the seams
Never finding new routines
Always in front of a screen

Is there anyone out there?
I've got this problem
I think it's me
Safely in my loveseat
I close my eyes and recline

Kick my feet, rest my knees
Oh my my, I'm counting sheep
Three little pigs rolling up their sleeves

Dozing off into a dream
Oh my my It's obscene
I'm back in class, I raise my hand and leave

Is there anyone out there?
I've got this problem
I think it's me
Safely in my loveseat
I shake my hair and despair

I sit and wonder what to do
I might just slumber the evening through

I can't just wait here alone like warm beer
Throw me in a freezer to see my future

I've been lost and unprepared
Oh my my, how I'm scared
Oh no no, Nobody waits for me

Is there anyone out there?
I've got this problem

I think it's me
Safely in my loveseat
I close my eyes and rewind

Is there anyone out there?
I've got this problem
I think it's me me me me me me
Save me from my loveseat
I close my eyes and recline
