# Follow

## Ilse DeLange

Dance with spirit, closer near it
Feel the presence now, don't fear it
I can take you with me
If you followFly through forests hear their stories
Learn of things they've seen before us
I will share this all
If you followIf you trust me
Paradise everywhere
My heart will take you there
If you love me
My world is open to you
If you followDrink the rain and taste the sweetness
See the sky the way it sees us
Hold the sun and more
If you followTouch the clouds and raise the moonlight
Play with stars and capture midnight
All of this is yours
If you followIf you trust me
Paradise everywhere
My heart will take you there
If you love me
My world is open to youThis is not just fantasy
It's real if you want it to be
If you dare to
Follow, followIf you trust me
Paradise everywhere
My heart will take you there
If you love me
My world is open to youWhat are you going to do
Will you follow
