

If They Knew

TLC

I don't know what she would do if she knew
That you were comin' to do what we do
I don't know what he would do if he knew
That you were comin' to do what we do Always wondered if she knew about us
When I met ya you said ya'll had broke up
Right on time 'cuz I didn't have my love
Me and him was on some more stuff That let me fall to you
And from what I could tell you fell too
And I wonder if it would be wrong
If we just kept it on And I know, we both had someone that we just left from
They still think that they're the only ones
I like the way we hang but it ain't been long
We know the feelings ain't all gone I don't know what she would do if she knew
That you were comin' to do what we do
I don't know what he would do if he knew
That you were comin' to do what we do Always thought that he knew about you
When I met you I said, "We were through"
In time my feelings came right back
But I didn't let us get off track And I got so into you
Way too fast what do I do
And I know I shoulda held it off
But you just turn me on And I know, we both had someone that we just left from
They still think that they're the only ones
I like the way we hang but it ain't been long
We know the feelings they don't know I don't know what she would do if she knew
That you were comin' to do what we do
I don't know what he would do if he knew
That you were comin' to do what we do We kept things pretty tight this far
Love without the sex and hundred thousand dollar cars
Ain't it funny how our aura's unify
An entity upon itself that can spread wings and fly A peaceful co-existence that will surely last
Becomes a reminiscent dream for those in our past
If they knew just a fraction of all the things we do
They still wouldn't comprehend the depth between me and you And I know, we both had someone that we just
left from
They still think that they're the only ones
I like the way we hang but it ain't been long
We know the feelings they don't know I don't know what she would do if she knew
That you were comin' to do what we do

I don't know what he would do if he knew
That you were comin' to do what we do I don't know what
She would do if she knew
I don't know what
He would do if he knew I don't know, don't know, don't know
Yeah baby I
I don't know, don't know
Don't know, I
