

# Goodbye To You

Zox

Broken down in paradise  
I'm heavy like I'm hypnotized  
And I am sure  
The sheep are all asleep by now  
Cause I was such a fool for you  
I held my breath till I turned blue  
I loved you so much better  
When you weren't around You know I hate to say goodbye to you  
But (but) it feels like it's the only thing that I can do  
You know I hate to say goodbye to you  
But goodbye to you's the only thing it feels like I can say Absence makes the heart so fond  
Now you're back I'm paralyzed  
Been sleeping with your skeletons inside my bed  
Cause I was such a fool for you  
All those things I said were true  
I just can't seem to get those feelings back again You know I hate to say goodbye to you  
But (but) it feels like it's the only thing that I can do  
Oh you know I hate to say goodbye to you  
Oh goodbye to you's the only thing it feels like I can say
