Best Love

Yuna

I need to know about this, babe
Cause I can't sleep at night
The conversation that we had
Something just feels rightI know we've known each other a long time
But I've never seen you in this light
I can see the future in your eyes
Longing for a love and I realizeYou are the one I want
(You are, you are)
The one I'm thinking of
(You are, you are)
I think that we can have more
(You are, you are)
We'll have what we deserve
(You are)Best kind of love
And you know that I want it
Best kind of love
Best kind, best kind
Best kind of love
And you know
And you know that I've got it
Best kind of love
You're the best kind of loveI guess it's not too much to ask
If you feel the same
We can build something that will last
No more playing gamesI know we've known each other a long time
I never thought I'd wanna make you mine
Call me up before you sleep at night
I know you have me lingering in your mindYou are the one I want
(You are, you are)
The one I'm thinking of
(You are, you are)
I think that we can have more
(You are, you are)
We'll have what we deserve
(You are)Best kind of love
And you know that I want it
Best kind of love
Best kind, best kind
Best kind of love

And you know
And you know that I've got it
Best kind of love
You're the best kind of loveI want it, I want itI know we've known each other a long time
But I've never seen you in this light
Call me right before you sleep at night
I know you got me lingering in your mindAnd you are the one I want
(You are, you are)
The one I'm thinking of
(You are, you are)
I think that we can have more
(You are, you are)
We'll have what we deserve
(You are)Best kind of love
And you know that I want it
Best kind of love
The best kind, the best kind of love
Best kind of love
And you know
And you know that I need it
Best kind of love
You're the best kind of love
