# Spread Your Love

## 2 Unlimited

Spread your love all over the world now
Spread your love all over the world now
Spread your love all over the world now
Spread your love all over the world nowDeliverin' in style, yeah, it's me again
Tell your boss an' tell your friends
About me 'cause they keepin' you busy
Totally wicked an' totally busyLet's join hands, it ain't too late
Let's keep our focus an' concentrate
For the moon, stars, Heaven up above
'Cause the R A Y an' he's spreadin' what's loveHere we go, don't take it slow
We goin' up an' down
An' around an' around, y'allHere we go, don't take it slow
We goin' up an' down
Spreadin' our love around, y'allSpread your love all over the world now
All over the world, yeah
Spread your love all over the world now
All over the world, yeahCome on, spread it, spread it
Spread your love, spread your love
You gotta spread it all over the worldI'm all about love, L O V E
Life in '95, as you can see
Make your hearts glow, feel the love flow
Yo, I've got to cool off with the tempoMoney can't buy you love that counts
It's only for real when your heart starts to bounce
For the moon, stars, Heaven up above
'Cause the R A Y an' he's spreadin' what's loveLove is the key, set yourself free
So won't you listen to me
When I say, when I say thatLove is the key, set yourself free
So won't you listen to me
When I say, when I say thatSpread your love all over the world now
All over the world, yeah
