

# The Trouble With Never

## Van Halen

You often wonder  
You wanna know  
How deep does  
The rabbit hole go? I know  
You never thought about it but  
Ask yourself later  
When you turn on your stereo  
Does it return the favor?  
I gotta know! That's the trouble with never  
Sure seems like a mighty long time  
That's the trouble with never  
When was the last time  
You did something for the first time?  
Hello! Every Einstein's assigned a Tweedle-Dumb  
And a Tweedle-Dumber  
Ain't no fool to see  
Never even wonder  
Yeah, we could come together  
I will call for you  
Hey, never's good for me  
How's never sound to you?  
1-800-TELL-ME-BABY That's the trouble with never  
Sure seems like a mighty long time  
That's the trouble with never  
When was the last time  
You did something for the first time?  
Yeah! Level with me babe  
Talk to me This could damage your reputation  
My wicked, wicked ways  
But maybe I just will, since you put it that way  
Delusions of elegance  
You never can say  
You wanna play, a game  
You can't quit when you get played  
Mistakes make people  
Isn't that what people say?  
Let's unplan the moment  
Dance the night away  
Selective amnesia is only a heartbeat away A simple question

Concern a time  
Suppose you wait forever  
And then you change your mind? That's the trouble with never  
Sure seems like a mighty long time  
That's the trouble with never  
When was the last time  
You did something for the first time?  
When was it?  
When was it?  
Oh! Text me baby.  
When baby? Tell me!  
When was the last time?  
Tell me.
