Stop Trying

Sia

We like you This is a game already won The time has come, stop tryingWe like you This is a game already won Your time has come, stop trying Take a break, you must be tired from the strain Take a break and let us carry your pain Please slow down, you are making my head spin Please slow down, you have all I have to giveWe like you This is a game already won The time has come, stop tryingWe like you This is a game already won The time has come, stop trying You don't know, you have everything you need You won't grow 'til you get down on your knees Say goodbye and do not dissect your lies Say goodbye, there's no need to apologizeWe like you This is a game already won The time has come, stop tryingWe like you This is a game already won The time has come, stop tryingWe like you This is a game already won The time has come, stop tryingWe like you This is a game already won The time has come, stop tryingWe like you This is a game already won
