## The Black Dahlia Murder

This is a reckoning  
A cliched cut of lying tongue  
Revenge never goes out of style Gorilla honing trigger, finger that makes gorilla man  
Ingrained, there's hate within us all Spiraling I've lost my footing once again  
I'm flailing in a tantrum of disgust When life holds nothing sacred  
When the loveless turn to loathe  
We'll witness this final threatened pose Oh, mother war  
Sleep in your arms tonight  
I'm burning, I'm burning for your love This juggernaut of bronze and alcohol  
Machines of vengeance now are born Of vengeance we are born  
To our graves these grudges shall be sworn Behold the death of emotions never mourned  
We'll die before we crawl  
Twisted ministers of death, praying for a bullet Hail, gorilla suffocate, gorilla maim  
An education in howling  
Ministers of death, we'll be praying  
Praying for this bullet, hail Gorilla suffocate, gorilla maim  
An education in complete misanthropy Oh, mother war  
I sleep in your arms tonight  
I'm burning, I'm burning for your love This juggernaut of bronze and alcohol  
Machines of vengeance now are born Oh, mother war  
I sleep in your arms tonight  
I'm burning, I'm burning Of vengeance we are born  
To our fucking graves these grudges sworn  
Forever forever
