Pretty Life

The Heavenly States

I am just over your shoulder, baby
You make me feel colder by turning away
Would you stop for a second, I'm askin' you a question
About, "You know why I am?"You know, you know, you know whyI'm about to change your pretty mind
I'm about to change your pretty lifeYou can close your eyes but do you taste my breath?
Hear my voice drowning you, feel my skin on your back
Hey, I see your falling and on your knees your crawling back
Back to meYou know, you know, you know whyI'm about to change your pretty mind
I'm about to change your pretty life
Are you ready? There's no stopping time'Cause, 'cause
'Cause, 'causeYou could be the reason I love
You could be the reason I love
You could be the reason I cryYou could, you could
You could, you couldI'm about to change your pretty mind
I'm about to change your pretty life
I can see the fear that's in your eyes
Are you ready? There's no stopping timeYou could be the reason I love
You could be the reason I cry
You could, you could
You could be the reason why
