

High Speed Dirt

Megadeth

Do it if you dare, leaping from the sky
Hurling through the air, exhilarating high
See the earth below, soon to make a crater
Blue sky, black death, I'm off to meet my maker
Energy of the Gods, adrenalin surge
Won't stop till I hit the ground, I'm on my way for sure
Up here in the air, this will never hurt
I'm on my way to impact, taste the high speed dirt
Paralyzed with fear, feel velocity gain
Entering a near, catatonic state
Pressure of the sound roaring through my head
Crash into the ground, damned if I'll be dead
Energy of the Gods, adrenalin surge
Won't stop till I hit the ground, I'm on my way for sure
Up here in the air, this will never hurt
I'm on my way to impact, taste the high speed dirt
Jump or die! Dropping all my weight, going down full throttle
The pale horse awaits like a genie in a bottle
Fire in my veins faster as I go
I forgot my name, I'm a dirt torpedo
High speed dirt, high speed dirt
High speed dirt, high speed dirt
High speed dirt, high speed dirt
