Just An Obstruction

Against All Authority

Advisory - the following lyrics contain explicit language:

I'm gonna rape your fertile land
And plant my seed in your mother
Fuckin' listen to me
Obey my laws worship my God
'cause your just an obstruction
And your holding back production
It's a free land of opportunity
Where my people can prosper
So we'll take your land and offer you lies
And take your lives and your land
With one sweep of my hand I'll take it all away
But I've got a solution
To rid our world of this human pollution
Lay down and die
And here's a blanket full of smallpox
To keep your children warm and put a stop to you
Lay down and die
Here's some land not fit for us to live on
It's called a reservation
And we've reserved it just for you
Your obstructing the flow of our progress
And we destroy what we can't control
But I've got a solution
To rid our world of this human pollution
Lay down and die
So have a drink on all of us
And cloud your vision so you're blind to what we do to you
Lay down and die
