[Christon Gray](#)

Verse 1(Baby Girl) What you want, and what you need from me.
 (baby girl) I won't waste your time, I'll satisfy
 (baby girl) Take all your fears put on beliefs, Oh
(baby girl) don't mistake me for you last man open up baby
 your scars are safe here with me
but I keep chasing a heart that wants to be gone
 maybe I'm crazy
 cause of what your starting to believe
there was hope for you and me
 just look up baby
 take my heart out for a drive,
girl lets ride, together it feels right
 got control baby
 relaxing for the time,
you just ride, me tonight, tonight
