Sleeping Dogs

Blind Dog

(Verse)
Well I'm not trying to get in the way
Minding my own, got nothing to say
About nobody, that's right nobody
Don't shake my tree, don't ride on my cage
You and me we'll be on the same page
I know trouble, don't make no trouble
(Chorus)
Yeah you better let the sleeping dogs lie
'Cause soon you gonna understand why
You gonna get bit right between the eyes
(Verse)
Well let me tell you how it all went down
Funky little joint on the edge of town
Call a punch pump, oh wait it had too much
Well push come to shove, and my came to blows
Spill some blood and I broke his nose
Yes I had to do it, mama that's all it was to it
(Chorus)

Now you better let the sleeping dogs lie
'Cause soon you gonna understand why
And you gonna get bit right between the eyes
Said you best let the sleeping dogs lie
Come on yeah
(Bridge)
Make no mistake let there be no doubt
Paint me in the corner I'll fight my way out
The more I love a story brother this is it
I'll be all over you, like stick on shit
(Chorus)
And you better let the sleeping dogs lie
Soon you gonna understand why
You gonna get bit right between the eyes
If you don't you let the sleeping dogs lie
(Chorus)
You better let the sleeping dogs lie
'Cause soon you gonna understand why
You gonna get bit right between the eyes

Said you better let us sleep in dogs eyes
