

I'm Done

Korn

We are the pain
We are the shame
We've gone insane
Inside where no one's around I am to blame
For everything
I like this game
That you all make me play I'm done bein' there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down We are estranged
We are deranged
I can't explain
How you all break me apart I am to blame
For everything
I like this game
That you all make me play I'm done bein' there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down We wait, we hate
We try to get away
Mistake my pain
It has been lead astray I'm looking around
I drop to the ground
Why does it have to end this way? Feeling numb so long
Oh God it's just everyday
It's everything
Now I pray for all of them to go away I'm done bein' there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down
