

# The Summer of Guns

## Amen

This ain't the summer of  
It doesnt matter, it never did  
It never meant that much to me This is the summer of  
It doesnt matter, it never did  
It never meant that much to me  
It doesnt matter, it never did  
It never meant anything With killer flus, H Bomb TV  
Im here just to deplore you  
I take your Pepsi ad  
And set fire to Michael Jackson Too free before you  
Too free deformed  
Too free before you  
Too freak deformed This is the summer of guns  
In the summer of rot  
This is the summer of guns  
In this summer of cost I cannot feed this broken lie  
I cannot pay with this inside  
Too closed my mind to understand  
I left here just before you Too free before you  
Too free deformed  
Too free before you  
Too freak deformed This is the summer of guns  
We're in the summer of rot  
This is the summer of guns  
In the summer of costs This is the summer of  
This is the summer of  
It doesnt matter, it never did  
You never meant anything to me With all the kills and all the flus  
You never meant anything I cannot feed this broken lie  
I cannot pay with this inside  
I disengaged before you I never had the upper hand  
To close my eyes, to understand  
I left here just before you Too free before you  
Too free deformed  
Too free before you  
Too freak deformed This is the summer of guns  
In the summer of gone  
This is the summer of guns  
In the summer of law We got the summer of guns

In the summer of costs  
This is the summer of guns  
This ain't the summer of
