

# Midnight to Midnight

## Chevelle

Sleep will carry us  
Have to mention heavy on the REM  
It's the least discerning place  
We could dive to We both should last another day  
Another field that ventures straight to nowhere  
What more you say, what comes is these?  
It's all the better your feat seems to carry well  
We couldn't dive to, to, to... We tossed our failures at the earth  
Connected to a cause  
Stripped away another fool, blame it all because  
We tossed our failures at the earth  
Stripped away from under So shy, cross my heart ascend  
With images to fall apart to die  
What don't we know? What should we know?  
Slipping under is just the beginning of first  
We couldn't dive to, to, to... We tossed our failures at the earth  
Connected to a cause  
Stripped away another fool, blame it all because  
We tossed our failures at the earth  
Stripped away from under We so forgot to mention  
A waste upon the hours  
We so forgot to mention  
The hook that is the chorus We so forgot to mention  
A waste upon the hours  
We so forgot to mention  
The hook that is the chorus We couldn't dive to  
We couldn't dive  
We couldn't dive to  
We couldn't dive We tossed our failures at the earth  
Connected to a cause  
Stripped away another fool, blame it all because  
We tossed our failures at the earth  
Stripped away from under
