

# Thangz Changed

## Onyx

Let all the live niggas in  
Kick all the bitch ass niggas out  
We came to rock and shock the house  
Turn it out and out and out  
Aiyo the words could get intricate vocab's in my temple  
But I'ma do this ripper dipple it's your mentals is what I'm into  
(For the money)  
It's essential and I got ta have it  
A verb addict without an author with the verbals we hurt 'em  
(Who?)  
Ever try to defy these guys they  
(Fry)  
And they skillet, to all that shit you say you do  
(Kill it)  
You yappin' [unverified] urkin' me and back slappin'  
You ain't no punchtop, it's you is the cappin'  
(Guess what?)  
It's here and there, we're the core  
(The centre)  
And if Tommy gets live once more, we're back on his agenda  
And for y'all hopeful niggas, tryin' ta be contenders  
(It's a storm)  
And we come down like goose coats in the winter  
Let all the live niggas in  
Kick all the bitch ass niggas out  
We came to rock and shock the house  
Turn it out and out and out  
Yeah, ain't no slackin' in my action  
I put my back in beatin' tracks in  
Official now cold smash and jaw tappin'  
(Yo, what happened?)  
Nuttin', just niggas bustin' caps when I was rappin'  
'Cos niggas be packin' pretty brand new pistols just for fashion  
'Cos a fraction be actin' frontin', makin' Jacksons off of satin  
But there better be no procrastin' with the axe when you're blastin'  
'Cos when you're maxin' and relaxin', that's when they start attackin'  
(So)  
Get the gats, forget the backs and like there's no compassion  
Keep ya heat cos nowadays these streets is cold as the Alaskan

Plus my brain sparks and my hat in Staten stay phattin'  
Let all the live niggas in  
Kick all the bitch ass niggas out  
We came to rock and shock the house  
Turn it out and out and out  
Give me the shotty, let me liven up the party  
I like to start trouble, 'cos I'm a little rowdy  
And with just three MC's that like to fight  
Even when we start the shit we always end it right  
So for all y'all, frontin's bad for ya health  
'Cos in the '9-fever, army goin' for self  
Kids is true for a cause and it's these fucked up conditions  
That we all hate, well fuck it if it's our fate  
Just listen up, to what I say  
'Cos niggas get shot daily, everyday  
Even my man got killed, now his family's mournin'  
But from all the dirt he did I know that, hell is callin'  
Went to his wake and shit got held up  
By niggas with masks on their face, I couldn't escape, I was fucked  
They said, "Everybody in here, up against the wall  
That dead nigga owe me money so I'm collectin from y'all"  
The people gave him struggle, five minutes went fast  
When I said, "I ain't givin y'all niggas shit  
I'ma just have to get plastered"  
From the centre of my life, a full-fleshed thief and I'm the truth  
That's why we always have proof  
Let all the live niggas in  
Kick all the bitch ass niggas out  
We came to rock and shock the house  
Turn it out and out and out  
Yeah, we do it like this and we do it like that  
Who's in regulation? Watch your back and pack a gat  
Never fall asleep, keep ya heat in your sheet  
'Cos goin' out is what it's all about  
Onyx, live  
Onyx, live  
Onyx, live
