

# Sunny Days (Play & Win Edit)

## Zero

In a way you can call me a fool,  
I was praying to find love from you  
In a way,  
Love is chasing me every day. From the day you left I was lonely  
It was all the same  
Different story  
Why do you have to go?  
Why my life is it so?  
We're so bad I didn't know. Tell me where is the love  
Or I believed in a lie?  
Tell me what do you feel  
When you look in my eyes I'm singing some sad song  
That reminds me of you  
But I could give you my love  
If you'd ask me to They say that love is a drug  
It can take you so high  
It can make you strong  
But you'd been living a lie  
I guess I might be hurt (bis)  
Don't worry I'll be OK Sunny days, look around you now  
Find a place where you can't be found  
Don't be scared  
Dreams will take you so far away. I'm the man who can't be around you  
I'm the man who stays just behind you  
Why do you have to go?  
Why my life is it so  
We're so bad I didn't know. Tell me where is the love  
Or I believed in a lie?  
Tell me what do you feel  
When you look in my eyes I'm singing the same sad song  
That reminds me of you  
But I could give you my love  
If you'd ask me to. They say that love is a drug  
It can take you so high  
It can make you strong  
But you'd been living a lie  
I guess I might be hurt (bis)  
Don't worry I'll be OK.
