

Resurrector

W.A.S.P.

Fall before me and bring me love
In here we are all pagan
Naked celebrations of Oh, we are the dark descending
Feel the magic, the never ending son
Hey, we're going the lost ascending
Last of Eden, never ending heathen love Show me your blind submissive love
Ooh, paint my name across
Your face in everlasting blood Won't you come to me?
Don't you believe in your God of love?
I'm your God you need
I'll give you heathen love Oh, won't you believe
I come to breathe life into your doves?
And I'll make you see
Make all believe neon Change us all forever
Claim us all for life
Take us all to your heaven
Change us all for love Won't you come to me?
Don't you believe in your God of love?
I'm your God you need
I'll give you heathen love Oh, won't you believe
I come to breathe life into your doves?
And I'll make you see
Make all believe neon
