

Calm Me Down

Fluidage

Calm me down, calm me down
I'm inside out and upside down
Hold my head in your hands
To calm me down, get it out
Get it out, oh, get it out
Use your teeth and your mouth
Cut in deep, the bullet out
Oh no, I'm aroused now, I'm aroused
You better calm me down, oh
Calm me down
Use your teeth and your mouth
Use your body
Use it to put me to sleep
Your body, oh
Soothe my soul so beautiful
All my life, oh, all my life
I hurt myself and cut myself
Put myself through living hell
Also I could feel what I felt
When you took me in
Absolved my sins
Give me flesh and skin
Use your skin
Use your body
Use it to put me to sleep

Your body, oh
Soothing my soul, so beautiful
Calm me down, baby
Your teeth, your mouth
Hold me properly
Baby, baby, calm me right down
Use your body
Use it to put me to sleep
Your body oh
Use your body
Use it to put me to sleep
Your body, oh
Soothing my soul, so beautiful

I wanna be a good man
Don't wanna be no husband
I wanna be only friend
Don't wanna break what I been
I wanna be your sleep son
Don't wanna fight when I love
I wanna be your seeker
I wanna scream eureka
I wanna scream eureka
I wanna scream eureka
