

Burn

Mad at Gravity

These embers burn down low
And with my face aglow
You are all I know Set this place on fire
Watch the flames rise higher
As they reach the ceiling
At your feet I'm kneeling Drawing ever near
My cause revealed as clear
Yes I burn for you here Set this place on fire
Watch the flames rise higher
As they reach the ceiling
At your feet I'm kneeling
With every trailing plume
Know it bears me home I would give it all
Yes, I would give it all...(x3) Set this place on fire
Watch the flames rise higher
As they reach the ceiling
At your feet I'm kneeling
With every trailing plume
Know it bears me home Let it burn....(x2)
