Together

C2C

All I want is
You to get up (Get up now)All I want is
Us together (Together now)All I want is
You to get up (Get up now)All I want is
Us together (Together now)Uh, together apart, apart together we are
From growing up and having dreams of being a star
To travel the world 24/7 is hard
Sad, used to be tighter and this string's on the guitar
Now its phone call, G chat, Skype messages
Long distance love got us both like hostages
Without the ransom note, hard to advance you know
Asking if you're coming home and the answer's no no
Maybe I could or would I should've take a little time to explain that
Thing's are better
And very soon you and I will back together, uh
Ready as ever to face the storm weather
Until then here's a little something for you
Over this ill street blues that my people's produce
The type of sound, that will tickle your fancy
Reminds of this all classic high life tune, could you ink meBenjamin letter uh, there's nothing better
I switch it up you know it's never the same
Can't wait to be together again, I'm saying, I'm sayingAll I want is
You to get up (Get up now)All I want is
Us together (Together now)All I want is
You to get up (Get up now)All I want is
Us together (Together now)Together apart, apart together we are
Maybe I could or would I should've
You and I be back together
Here's a little something for youTogether uh
You and I
Together nowYou and I together nowYou and I together now
