

# So Far to Fall

## Emerson, Lake & Palmer

(Emerson, Lake, Sinfield)I was "Master Faster", I was "Mr. Mystery"  
there wasn't a mortal man was gonna make a monkey out of me.

I had reflex, action, first strike capability  
so high - so tall - so far to fall.I took my time, my life was all without a cause  
till she came bursting through the frontdoor of my heart,  
just like the signs that say I'll follow by a star,  
once more, no blame, I'm far, no name .Too much, too soon, a touch of moon  
a burst balloon, so far, so far to fall.

Ooh she had me, she had me running rings around the floor.

She had me nailed to a door, she had me crying out,  
she had me crying out for more, more, more, more, more, more, more.

She bad me, she tied me up in knots like a piece of a string,  
she did a thing to my thing, she did a thing to my thing  
like it's never been done before.Too much ...I saw stars, in the night, I was hers, I was high  
I had so far to fall, such a long way to fall  
and I fell and I fell and I fell -----So if you're "Master Blaster" or you're "Mr. Mystery"  
don't think you're insulated from love's electricity.  
There'll be no escape for you, there was no escape for me  
so high - so tall - one night you're bound to fall.
