

Renegades

Dawn Richard

[Intro]

Light[Verse 1]

I know you like it when I remind you that I'm yours

I push it on you real good, let the glitter fall

Let me decorate my love all on you, so everyone knows

I got my name on you, let me escape with you on this strip of gold, strip of gold[Pre-Chorus 1]

Where my renegade, renegade?

Where my renegade, ren-renegade?

Where my renegade, renegade?

Where my renegade, ren-renegade?[Pre-Chorus 2]

Renegade

You're my renegade

You're my renegade

You're my renegade[Chorus]

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade[Verse 2]

From coast to coast, they know they fucking with a real one

But when there's two of us we rocking like an anthem

Smooth like the fuel rolling in your engine

I got my name on it, booming in your system[Pre-Chorus 1]

Where my renegade, renegade?

Where my renegade, ren-renegade?

Where my renegade, renegade?

Where my renegade, ren-renegade?[Pre-Chorus 2]

Renegade

You're my renegade

You're my renegade

You're my renegade[Chorus]

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade[Chorus]

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade

Run a-run away with you, rene-renegade
