## Skrape

Stop messing with my level head  
I'm running away  
Tried fixing you  
Cant go it alone  
It wasn't this way It always on your mind  
Always on rewind  
Slow change  
No decline  
It shows, its always on your mind Check my request, for caress  
In comes a day  
Tried fixing you  
Cant go it alone  
It wasn't this way Its okay to be  
Its okay to be free  
To throw it away It always on your mind  
Always on rewind  
Slow change  
No decline  
It shows, its always on your mind And its total affection  
Its total affection  
I run you, to hate me  
I run you It always on your mind  
Always on rewind  
Slow change  
No decline  
It shows, its always on your mind
