

# Sure Thing

[Dolly Parton](#)

(Dolly Parton) It's Saturday night and it's a perfect night for dancin'  
I've had my makeup off and on all day  
But it's gotta be right for a night of sweet romancing  
And I've combed my hair at least a thousand ways  
Mirror Mirror don't you tell a soul  
Of how I smiled and talked all day to you  
And how I practiced every step I know of  
But tonight's the night and I'm a dancing fool (It's a sure thing) when the sun goes down this evenin'  
(It's a sure thing) to be out on the dancing floor  
(It's a sure thing) I'll be the last one leavin'  
(It's a sure thing) gonna dance till I can't no more I could of had a date but I thought I'd take my chances  
I'm gonna dance with a different guy to every song  
Then I'm a gonna wait till the right one strikes my fancy  
The he's gonna be the one to dance me home (It's a sure thing) when the sun goes down this evenin'  
(It's a sure thing) to be out on the dancing floor  
(It's a sure thing) I'll be the last one leavin'  
(It's a sure thing) gonna dance till I can't no more (It's a sure thing) when the sun goes down this evenin'  
(It's a sure thing) to be out on the dancing floor  
(It's a sure thing) I'll be the last one leavin'  
(It's a sure thing) gonna dance till I can't no more
