

Where Did We Go Wrong

Fiji

?One of the things I was trying to stay away from
is see my children be part of a broken family.?

Wasted mornings and wasted nights
Trying to find me a big surprise
Come home early just to see
The broken shards of bash from your tears
Now the love that I once had is gone
Its like heaven left me on my own
Smell the perfume that you left behind
And all regret has got me thinking twice

Chorus

Where did we go wrong?
How did I not see the signs that you've shown
All the lies we told
Only lasted to the day you walked out my door

The only thing to do now is move on
Still you haunt me with emotions strong
Thinking of my baby girl who's lost
Wondering why she feels the pain we caused
Pray that she knows that I'll be here
And may God please take away her fears
There will come a time when she will see
The reasons why our love was not meant to be
