I Can Tell

BBMak

It's in the way you caress my face
Like you always used to but differently
We can smile to hide the shame
Here in the pourin' rain, waitin' for the sunI'm cryin' all alone, standing next to you
You have done your best to see it through
But, oh babyI can tell by the way that you love me
I can tell that the fire is burnin' out
I can tell by the way that you hold me
I can tell that the fire is burnin' outMovin' down an open road, askin' our hearts for direction
'Cos we're so close
I can see the faded signs, takin' to the same destination
But you're not thereWe're dancing to the music that ended long ago
You've done everything that you can do
But, oh babyI can tell by the way that you love me
I can tell that the fire's burnin' out
I can tell by the way that you hold me
I can tell that the fire is burnin' outOh I, oh I, oh I, oh I
My heart is in the wind, driftin' over you
I've done everything that I can do
Oh babyI can tell by the way that you love me
I can tell that the fire is burnin' out
I can tell by the way that you hold me
I can tell that the fire is burnin' outI can tell by the way that you love me
I can tell that the fire is burnin' out
I can tell by the way that you hold me
I can tell that the fire is burnin' outI can tell by the way that you love me
I can tell that the fire is burnin' out
I can tell by the way that you hold me
I can tell that the fire is burnin' out
