

# **Ice Age (feat. Mike Dece)**

## **Denzel Curry**

[Hook: Denzel Curry]

Told her it's an Ice Age

With a cold blooded nigga like me (I'm cold)

Tell that bitch I'm Rick James (Cold Blooded)

And a nigga really want a super freak [x2]

I just wanna fuck

I just wanna smoke my blunt

I don't give a fuck about these bitches man

Cause they all want a nigga that stunt [x2][Verse 1: Denzel Curry]

Let me tell you niggas about the game

Only get the pussy fuck a name

Bitches never really have a face unless she sucking on your dick

Putting jitts in the food chain

Blow up the pussy like Hussein

Bitch look at me crazy, like who sane?

Got fire, designer, I got the lighter, igniter

As I'm burning the back of the Mary Jane

Anakin Skywalker flame

Lord Vader kush surrounding my brain

Forizzle ? homies with the shizzle my nizzle

Doper than nickels that sprinkle over the cane

Melissa is like my little thang

Most hoes, can't say the same

Piping the pussy and maybe biting the cookie

Honey love ain't shit but I just came

Jizz boss

Make her drink the cum sauce

Bring her ass to my world

But this might have her ass lost

Nowadays, pussy have a cost

Never let the devil in like Ross

Curry the killer, the nigga, call me Jizzila

Just keep it pimping, my nigga, so Jizzwalk[Hook]

[Verse 2: Mike Dece]

Kush smoke all I see

Eyes open, all three

Got her wetter than some Hi-C

On my golden dick, I'm icy

I got your whore so horny

Bring me anything that I need  
She's a long dick addict  
Prostitute her cause she love me bitch  
Bitch I'm in need of that paper  
Iced up as fuck, fuck equators  
Heat that shit up, it vapor  
Icy, stay icy, I quake her  
Such a whore I cannot chase her  
She bring that shit back as I make her  
She fuck with my dollars, I'm making her holler  
I beat that bitch up, yes I blaze her  
Cold blooded and blooded debaser  
L-E-A-Ning, no chaser  
Is needed, I skeet on her face or  
I'm proper, I fuck her, see you later  
You bitch, erase her  
Getting that ho out of here  
She's nothing, don't need her  
Always keep my pistol right here  
[Hook]
