Rising from Tragic Flames

Rhapsody of Fire

Save my soul
See the hands of time
My guide
Rise and just make me strong!Too far horizons I'll follow your dreams
I'll search mystic flames
I will know my new fate
Shy mystic rain falling from angels's reign
Will color my visions
Will guide my new dayI will call your name again
In this cold brave new worldShades of gray and magic flames
Are facing tragic days
Fighting the ancient sin
I'll live and
In distant lands I will find all the answers
See tragic flames with the eyes of the angels
I'll fight and see my fateDays of hope
And days of endless pain
Alone, with my silent and restless soulDistant horizons I'll follow your dreams
(I'll) Search mystic flames
(I'll) Know my new fate
Shy mystic rain falling from angels's reign
Will color my visions
Will guide my new dayI will call your name again
In this cold brave new worldShades of gray and magic flames
Are facing tragic days
Fighting the ancient sin
I'll live and
In distant lands I will find all the answers
See tragic flames with the eyes of the angels
I'll fight and see my fateShades of gray and magic flames
Are facing tragic days
Fighting the ancient sin
I'll live and
In distant lands I will find all the answers
See tragic flames with the eyes of the angels
I'll fight and see my fate
