Five

Ultraviolent

Disobey your fathers
It's time we're making you believe
Desecrate your brothers
This is the way it has to be
Can't comprehend this madness
The will to serve will set you free
I did my time and risked my life
I sacrificed and now I bleed

Hear you inside these empty walls
I feel you when no one's there
And when it's dark at night
You're here with me in my head
I'm walking on a ledge
I'm too afraid to close my...

Made to be a martyr
And it's made me go insane
Turned into a monster
There's no glory in the pain
I'm taking on a war because I had I honor left
Fighting for my freedom now I'm fighting to forget
Misinformation fogs the reality of war
Where are all the bodies taken by the storm
The sound is drowning
The hum of a tank
My gun shoots bullets but my mind shoots blanks

It's time we're making you believe
This is the way it has to be
The will to serve will set you free
I did my time and risked my life
I sacrificed and now I bleed

Fuck

Hear you inside these empty walls
I feel you when no one's there
And when it's dark at night
You're here with me in my head

I came here all alone
So no one can hear me fall
It's getting late for me
I never left the sunshine
